

THOMAS DOWNEY, LTD.

CONSULTING ENGINEERS

THE COMPANY

Thomas Downey, Ltd. is a specialty consulting engineering firm that assesses existing buildings and structures, identifies and evaluates defects, develops repair and restoration plans, performs forensic investigations and assists property owners in planning and capital budgeting.

Established in 1979, the firm has become one of the most trusted resources for researching and analyzing building conditions and resolving related performance problems in the Metropolitan Washington, DC area and the Baltimore to Richmond corridor. The full range of building community stakeholders relies extensively on the TDL engineering team. The firm's engineers are registered to practice in Maryland, the District of Columbia, Virginia, Pennsylvania, Kentucky and North Carolina.
